Sai Kung Central Q01 [10 901 (-34.33%)]	Including the areas in the south of Tai Mong Tsai Road, the east of Po Tung Road and Hiram's Highway, and part of the Inner Port Shelter (Sai Kung Hoi).	Based on the 2015 original constituency boundary shown on the proposed constituency boundary map, the projected population of Q01 (Sai Kung Central) in 2019 will be below the statutory permissible lower limit. Taking into account the community integrity, local ties, geographical factor, transportation and population distribution, it is not feasible to maintain the population of Q01 (Sai Kung Central) within the statutory permissible range by adjusting the boundaries of the adjacent DCCAs. Therefore, it is proposed that the boundary of the Constituency should remain unchanged and its population be allowed to continue to deviate from the statutory permissible range (the population of this Constituency in 2015 delineation exercise was also allowed to deviate from the statutory permissible range).

Based on the 2015 original constituency boundary shown on the proposed constituency boundary map, the projected population of T01 (Lantau) in 2019 will substantially exceed the statutory permissible upper limit. With a view to maintaining the population of the Constituency within the statutory permissible range, it is proposed:
Yat Tung Estate South T02 [23 475 (+41.42%)]	Including Yat Tung (I) Estate (except Hong Yat House and Ching Yat House) and Mun Tung Estate.	(i) to transfer Mun Tung Estate located within the original boundary of T01 (Lantau) to the adjacent T02 (Yat Tung Estate South); and
